the
Date*
COST \$150.00

Billings, Montana
Crowne Plaza Hotel
Wednesday • April 29, 2009
8:30 a.m. – 4:30 p.m.

FOR MORE INFORMATION VISIT OUR WEBSITE AT www.deq.mt.gov/Recycle/index.asp

Participants will learn:

- why waste reduction, reuse and recycling is important and growing;
- how to save money and waste from construction and demolition projects;
- how to estimate how much project waste and recyclables will be generated;
- how to create a construction or demolition waste management plan;
- how to analyze hauling proposals based on projected quantities of trash and recyclables;
- how to educate crews for best compliance and efficiency;
- how to conduct an analysis of volume, weight and cost of a sample recycling program;
- how to document recycling results.
